

Tough, stylish, anti-slip flooring

Ecotile Sports Flooring

Ecotile interlocking tiles make an ideal sports and gym floor covering as they can be loose laid over any hard surface quickly and easily.

Ecotile is perfect for both commercial and domestic gyms and sports floors as they absorb impact and vibration and will protect the floor from damage.

The interlocking tile and ramp system enables you to cover the entire floor or individual areas for weight training.

Available in eight primary colours and two surface textures, Ecotile will create a smart low maintenance floor finish that has a significantly longer life span than many of the alternatives.

Key Benefits

- Smart and modern appearance
- Extremely hard-wearing
- Quick and simple to install
- Good anti-slip properties
- Easy to clean and maintain
- Good anti-fatigue properties
- Good thermal and acoustic insulation
- Flexible, add or remove tiles to suit your changing requirements
- Protects your existing floor from damage
